### Alien Seas: Oceans in Space: Carroll, Michael, Lopes ...

California has been a UFO hot spot for years, so when it was theorized that a structure discovered 600 meters (2,000 ft) below the water 10 kilometers (6 mi) off the coast of Malibu was in fact an alien base, it didn't come as that much of a surprise. The structure has a distinct oval shape and what appears to be flat top.

### Alien Seas: Oceans in Space by Michael Carroll

This is where different species find similar solutions to an environmental challenge But according to Professor Stephen Hawking, an alien race would be millions, even billions, of years more advanced than humans If aliens are using the Earth's oceans, they would have found a way to travel, breathe, and hunt for prey with little resistance from the water This theory correlates with the ...

### What life might be like in alien oceans - BBC Future

—Jill Tarter, SETI Institute "Kevin Peter Hand is an explorer—an explorer of the arctic, of Earth's deep oceans, and of outer space. Now he longs to explore the vast oceans beneath the ice of moons of Jupiter and Saturn. In his book Alien Oceans, he straps you in and takes you along for the ride."

### Book Review: Alien Seas, and so much more | The Planetary ...

Beyond the Galilean satellites may lie even more "alien oceans." Saturn's planet-sized moon Titan seems to be subject to methane or ethane rainfall. This creates methane pools that, in turn, become vast lakes and, perhaps, seasonal oceans. Titan has other seas in a sense, as large shifting areas of sand covering vast plains have been discovered.

### Alien seas - Space Engine

Eight Discoveries From the Ocean that Indicate Aliens Might be Real I n some

obscure TV show, we learned that space was the final frontier. However, with the Kepler space observatory finding hundreds of awesome new planet every month, we're starting to wonder if that's true. After all, 95 percent of the ocean is still unexplored by humans.
