## **Federation Press - Book: Environmental Decision-Making**

Decision-Making in the Changing World. The above discussion has a direct relationship to business decision-making. First, business practitioners need to accept that change is often unpredictable, whether domestic or international. Thus making future decisions based on the traditional considerations becomes a dangerous decision premise.

## **Bing: Environmental Decision Making In**

# Online Library Environmental Decision Making In Context A Toolbox Aspa Series In Public Administration And Public Policy **Context**

Contemporary environmental decisions are made within the context of sustainability aimed at meeting integrated ecological, economic and social goals. Most involve a complex mix of actors and institutions - differing values and differing interests.

## **Environmental Decision-Making in Context: A Toolbox - 1st ...**

Strategic Environmental Assessment aims to incorporate environmental and sustainability considerations into strategic decision making processes, such as the formulation of policies, plans and programmes. In order to be effective, the assessment must take the real decision making process as the departure point.

## **Environmental Decision Making In Context**

Strategic environmental assessment (SEA) is a systematic decision support process, aiming to ensure that environmental and possibly other sustainability aspects are considered effectively in policy, plan and program making. In this context, following Fischer (2007) SEA may be seen as: a structured, rigorous, participative, open and transparent environmental impact assessment (EIA) based ...

## **Context : Chad J. McGuire ...**

Environmental decision making can be defined as the process of evaluating the ways humans go about making choices that impact the natural environment. How individuals or groups decide to use...

## **Decision-Making in a Global Environment - A Peer-Reviewed ...**

The general environment usually includes political, economic, sociocultural, technological, legal, environmental (natural) and demographic factors in a particular country or region. The general environment consists of factors that may have an immediate direct effect on operations but influences the activities of the firm.

## **Environmental Decision Making and Risk Management**

Basic criteria for "good" decision making are efficiency, effectiveness and equity. A further criterion specific to environmental decision making is flexibility. In the context of environmental decision-making, efficiency can be interpreted as good process (rather than economic efficiency), and effectiveness as good outcomes.

## **Environmental Decision-Making - Context**

In fact, a variety of environmental decision-making processes or behaviors have been studied directly

applying the NAM or an extension of it (Bamberg et al., 2007, Bamberg and Möser, 2007, De Groot and Steg, 2009, Klöckner, 2013, Onwezen et al., 2013).
