Chemistry 101 11-MOLECULAR GEOMETRY. In this experiment, you will build models of molecules using a model kit. These models will then be used as a guide to draw a three-dimensional representation of the molecule. This should aid you in better visualization of molecules and their bonds and structures.

MOLECULAR MODELS OBJECTIVES INTRODUCTION

MOLECULAR MODELS : STEREOISOMERS Note: No pre-laboratory summary is required for this experiment, but there are some topics you most probably need to review from 351 and you may want to start work on the "experiment". Half the questions are review topics and the other half based on application to topics that relate directly to 353.
