Four soldering stations at Workingsilver teaching studio. see our Pinterest board here to see more images of soldering setups. Once you have found a well ventilated area, the next thing to consider is how to fireproof it. The best way to keep your area fire proofed is to simply keep your flame within the designated area.

Solder Studio Creative Techniques For

Quick tips: 1. Always tin (touch the solder to the iron's tip such that it flows onto it and coats it) your iron before heating the components you want to solder as this will DRASTICALLY improve the heat transfer and therefore solder flow. 2. Use a WET sponge instead of the flick method to remove excess solder. That being said, still
