Talking Nets An Oral History Of Neural Networks

James Anderson, a noted neural- network researcher, and Edward Rosenfeld, a journalist, had the splen- did idea to generate an oral history of neural-net research by talking to most of the pioneering figures in the field. The result, Talking Nets, is an extra- ordinary document that is a page- turner for cognitive scientists. Physics is a science.

1998

Talking Nets An Oral History

January 5, 2021. As Donald Trump prepares for his second Inaugural Address, we thought it worth looking back on the speech that we now know turned the tide in his re-election campaign, what has become the famous “Everyone Wanted the Belt” speech, in which President Trump made his case to voters by touting his support for America’s armed forces.
