A specification is a document that describes in words what cannot be visualised or explained on a drawing or model. How should specifications be structured? The structuring of specifications will vary from project to project but should reflect the work packages on a particular project and any sub-contracts.

Drawing of your mark | USPTO

The general format of the Trade Specification has been updated to be in-line with recent updates to other Trade Specifications. However, the main changes to the specification are within section 4.6, noted as follows, "The Contractor is to leave a minimum of 1m² of spare tiles, from the same batch of tiles that have been used in the floor tiling operation, in case of small area remedial works.

Circuit Drawings and Wiring Diagrams

Definition: Fashion Flat sketches, also called Fashion flats or flat drawings, technical flats, or just "flats" in the fashion industry, are a black and white fashion technical drawing that shows a garment as if it were laid flat to display all seams, topstitching, hardware, and any other design details.
