Implementing a nursing care plan for exotic pets | Vet Times

In recent years, nursing care plans have become commonplace in veterinary nursing. In the early days, human nursing models, such as the Roper, Logan and Tierney care plan (1980), or Orem's self-care deficit (2001) were used – but these

were soon superseded by the Orpet and Jeffrey ability model (Orpet, 2008), which is now widely used across the profession.

Dog and cat medicine is taught at all veterinary schools, however education in exotic animal medicine is greatly lacking. This contrasts with the frequency at which rabbits, guinea pigs, hamsters, tortoises and other reptiles and birds are presented at the veterinary surgery. Vets are left with no specific training on dealing with these species, and although data is available in books, it ...

The Association of Zoo & Exotic Veterinary Nurses (AZEVN) was founded in 2016 by Veterinary Nurses who wanted create a unique organisation that was able to offer unique and affordable CPD opportunities, whilst helping to facilitate the exchange of information and networking between RVN's to help promote and maintain the highest standard of veterinary nursing within zoo and exotic institutions.

Veterinary Nursing of Exotic Pets, 2nd Edition | VetBooks

Avian and exotic practice. From teaching, I moved into my current position as senior avian and exotic nurse at Great Western Exotics, in the multidisciplinary Vets Now Referrals hospital in Swindon, Wiltshire. I thoroughly enjoy my role here as it offers the opportunity to get hands-on with complicated exotic cases using cutting-edge techniques.
